PROFESSIONAL SUMMARY

Software developer experienced in building web applications and interactive software. Skilled in TypeScript, JavaScript, Python, React, Next.js, SQL, and API-driven development.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C, C++, C#/.NET, SQL, HTML, CSS
Frameworks & Libraries: React, Next.js, Node.js, Tailwind CSS, WordPress, EPUB.js, XState
Databases & Cloud: PostgreSQL, Supabase, Microsoft SQL Server, AWS, PostGRES, TimescaleDB
Tools & Platforms: Git, GitHub, Linux, VS Code, Figma, Godot 4.7, FastAPI
Spoken Languages: English (Fluent), Hindi (Fluent), Marathi (Conversational)

EXPERIENCE

Otaku Mantra | Software Developer & Media Intern | Sep 2026 – Mar 2027 (Ongoing)
- Six-month hybrid internship covering collaborations, campaigns, partner coordination, stakeholder communication, and business operations.
- Coordinate proposals, campaign requirements, timelines, deliverables, and progress records with internal and external stakeholders.

Otaku Mantra | Full-Stack Web Developer & Designer | May 2026 – Jun 2026
- Designed website UI in Figma, translating concepts into high-fidelity mockups and component layouts.
- Collaborated on translating designs into a functional website, bridging UI/UX design and front-end implementation.

NS Media Solutions | Vasai, Maharashtra | WordPress Intern | Jun 2023 – Aug 2023
- Built a functional online bookstore using WordPress with reading and purchasing capabilities.
- Implemented user account creation and login features for personalized access and purchase history.
- Customized WordPress themes and plugins to improve presentation and user experience.

SELECTED PROJECTS

AniCRM | Anime Creator Agency CRM
Technologies: Next.js 16, React 19, TypeScript, Tailwind CSS v4, Supabase, PostgreSQL, Clerk
- Designed and developed a full-stack CRM web application to manage creator records, outreach, contracts, companies, brand deals, campaigns, and payments in a unified workflow.
- Translated agency workflows into application modules, data models, CRUD operations, and dashboard analytics; structured the PostgreSQL schema across 12 tables with Row Level Security.
- Implemented role-based access control with Clerk authentication and server-side permission checks, plus reusable UI components, custom filters, admin-managed dropdowns, and responsive navigation.

VitaScan AI | Blood Biomarker-Based Multi-Deficiency Prediction
Technologies: Python, Graph Attention Networks (GAT), Machine Learning
- Designed a dual-pipeline AI screening architecture, with blood-report analysis as the primary research pipeline and symptom-image analysis as a supporting validation feature.
- Proposed a Graph Attention Network pipeline to predict iron, vitamin B12, and folate deficiencies from routine blood biomarkers.

It's Behind You! | 2D Horror Platformer
Technologies: Godot 4.7, GDScript, Pixel Art
- Developed an indie 2D pixel-art horror platformer set in a dungeon, with a pursuing ghost and an escape-focused gameplay loop.
- Implemented and released gameplay updates including three difficulty levels, a completion bar, and an in-game menu.

Neobrutalism Playground
Technologies: React, TypeScript, Tailwind CSS, npm
- Built an interactive component and theme playground with live previews and controls for borders, shadows, colors, and typography.
- Published an installable npm package with ESM/CJS support and Shadcn-compatible accessible primitives.

Bibliotheca V2
Technologies: Next.js 15, React 19, Tailwind CSS, Supabase, PostgreSQL, EPUB.js, XState
- Built a full-stack eBook platform with in-browser EPUB reading and Supabase-backed authentication, database management, and digital asset storage.
- Created a checkout and payment simulation flow using XState to manage purchasing state transitions.

EDUCATION

St. John College of Engineering and Management — B.E. (Pursuing) | GPA: 9.18/10 | Expected May 2027
Viva College of Diploma Engineering and Technology — Diploma in Computer Engineering | 84.17% | Aug 2022 – Mar 2024
Viva Junior College of Commerce, Science and Arts — HSC, Science Stream | 86.17% | Jul 2019 – Jun 2021

TRAINING & CERTIFICATIONS

CS50X — edX / Harvard University (Pursuing) | Game Development with CS50 — edX / Harvard University (Pursuing) | .NET and Microsoft SQL Certification Course — KantaScypt, 2024 | Metaverse Certification Course — IOFT, 2025

ACHIEVEMENTS

- HackOn with Amazon – Season 3: Presented an AI-based project at national level.
- TechSurf 2023 Hackathon: Participant in a national-level tech competition.
- Hack Beyond Limits 2025: Online Odyssey Hackathon participant.
- BIS Paper Presentation: Presented a paper on Quality Assurance at national level.
- Srijan Brand Quiz: Won second prize at national level.
